

- Investment Results – Year-End 2023

Last academic year, we conducted a Food Waste study and discovered that within the span of a month there was roughly around 15,000 pounds of food waste discarded by students who ate at our Dining Halls.

- This campaign is designed to make students aware of the environmental issues surrounding food waste and challenge them to actively reduce this waste by 20% over the month of October which also happens to be Campus Sustainability month.

If that goal mark is successfully achieved, then 100 students will be randomly chosen to
