# Evacuation Map

*f* Once you have evacuated safely, DO NOT leave the area until you have been released by the Building Marshal or campus official. It is critical for emergency response that we have an accurate count of all individuals, to ascertain who may have remained in the facility.

# Fire

- f* Activate nearest fire alarm and call **911**.
- f* Evacuate the building & notify occupants as you leave.
- f* Do not return until authorized by emergency personnel.
- f* Do not use elevators.
- f* Fire Extinguisher instructions if trained:
  - P** - Pull safety Pin from handle.
  - A** - Aim nozzle at base of fire.
  - S** - Squeeze the trigger handle.
  - S** - Sweep from side to side (watch for reflash).

# Earthquake

- f DROP-COVERHOLD** under a table or desk or against an interior wall until shaking stops. Protect head and neck. Do not stand in a doorway and do not run out of the building while it is shaking.
- f** After shaking stops, check yourself and others for injuries.
- f** Do not use the elevators. Move towards the nearest exit and evacuate to a safe location away from buildings, trees, streetlights and overhangs.
- f** Follow directions given by building marshals or campus officials and be prepared for aftershocks.

*f*

# Active Shooter

- f* **RUN:** Leave your belongings behind. If there is an escape path, attempt to evacuate. Help others if possible.
- f* **HIDE:** If you cannot get out safely, hide. Lock or barricade the door, silence your cell phone and stay quiet. Be aware of your surroundings and know options for escape.
- f* **FIGHT:** As a last resort, and only if your life is in danger, you may need to attempt to incapacitate the shooter. Work in unison if

# Hazardous Waste
